MySQL Layoffs Dataset

Exploratory Data Analysis — Results & Evidence

A labeled collection of MySQL Workbench result screenshots documenting dataset overview, company and category comparisons, time trends, and rolling cumulative totals.

Cleaned table rows	Date range shown	Max reported layoffs	Screenshots
1,995	2020-03-11 to 2023-03-06	12,000	12 labeled results

How to use this document

Place this PDF in your GitHub repository's results/ folder. Each screenshot is labeled with the analysis command it corresponds to and a short interpretation of the visible output. These captions summarize the screenshots supplied; they are not a substitute for rerunning the queries against the current database.

Interpretation note: SUM(total_laid_off) ignores NULL values, so totals represent reported layoffs and may not capture every layoff. Time-based queries exclude rows whose date is NULL. The dataset shown covers 2020–2023.

01. Cleaned Dataset Preview

Query/result: SELECT * FROM layoffs_staging2; — sample rows from the cleaned working table, showing the available columns and values.

02. Cleaned Dataset Row Count

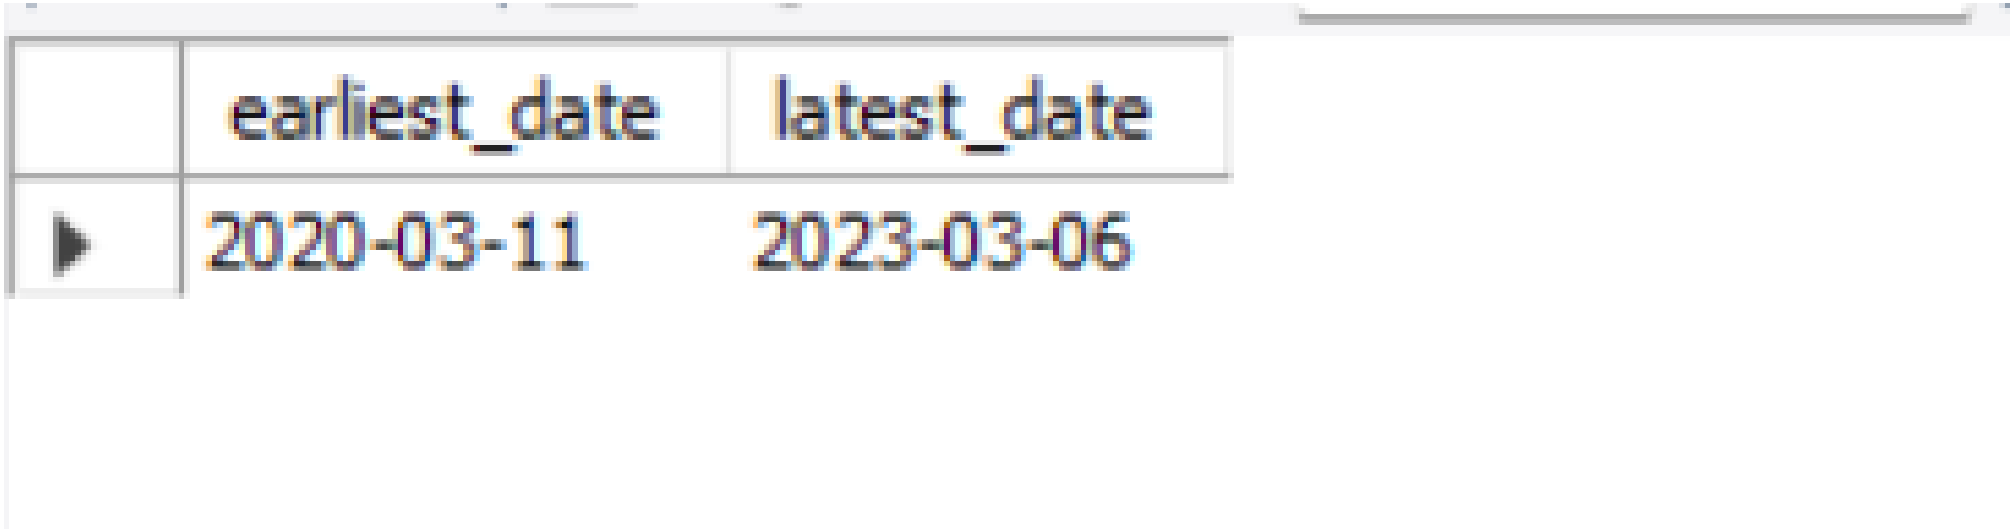

Query/result: SELECT COUNT(*) AS total_rows FROM layoffs_staging2; — 1,995 rows in the cleaned table.

	total_rows
▶	1995

03. Dataset Date Range

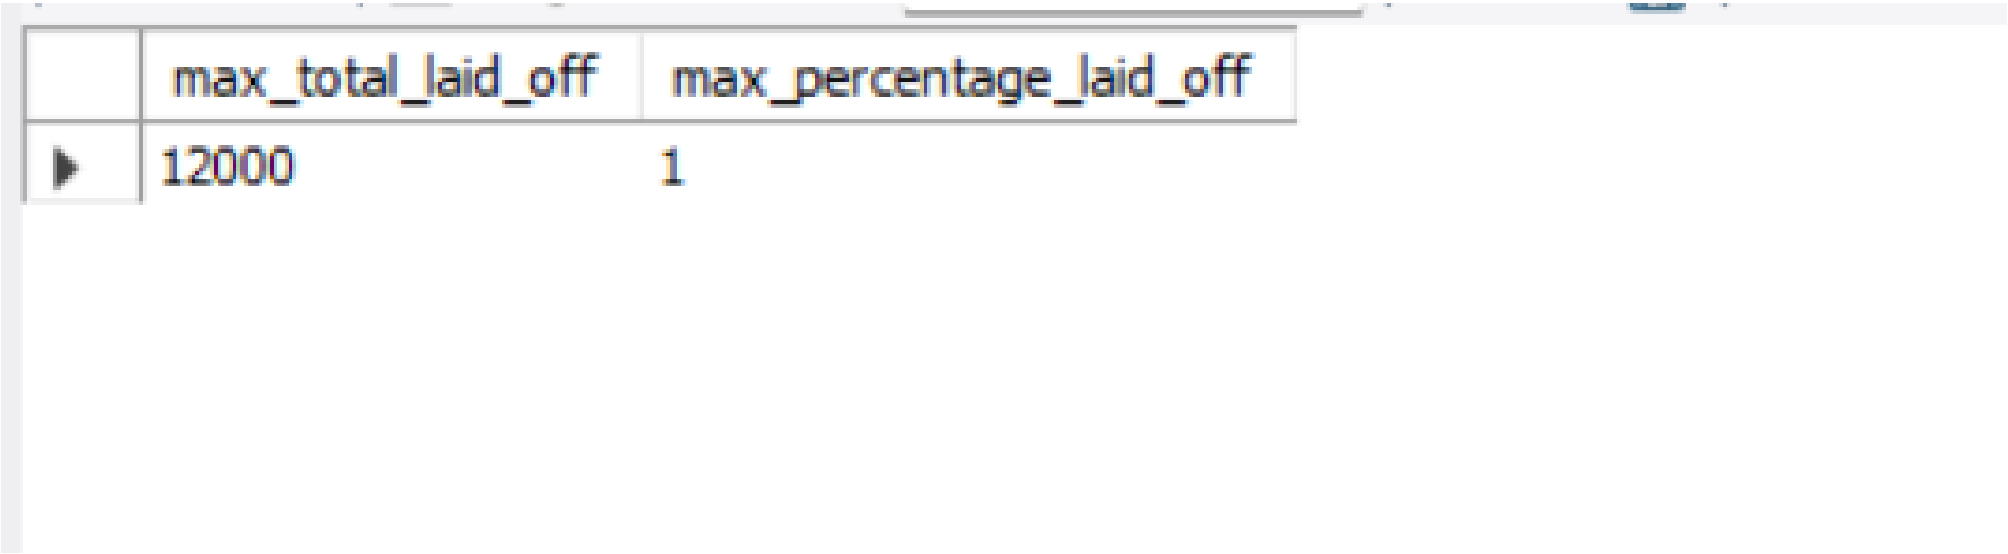

Query/result: MIN(date), MAX(date) — earliest date: 2020-03-11; latest date: 2023-03-06. Rows with NULL dates are not represented by MIN/MAX.

	earliest_date	latest_date
▶	2020-03-11	2023-03-06

04. Maximum Recorded Layoff Values

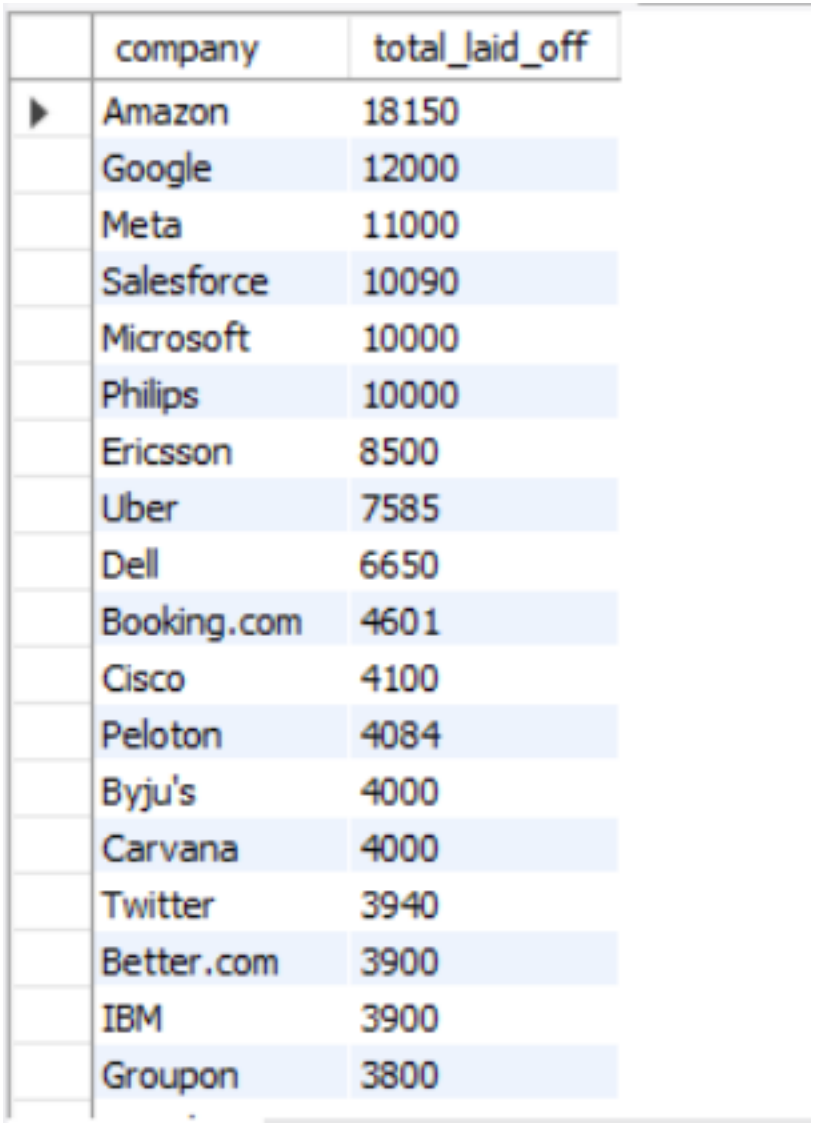

Query/result: MAX(total_laid_off), MAX(percentage_laid_off) — maximum recorded layoff count: 12,000; maximum recorded percentage: 1 (100%).

	max_total_laid_off	max_percentage_laid_off
▶	12000	1

05. Companies with the Highest Reported Layoffs

Query/result: GROUP BY company; SUM(total_laid_off); ORDER BY total_laid_off DESC. Amazon leads this result with 18,150 reported layoffs, followed by Google (12,000) and Meta (11,000).

company	total_laid_off
Amazon	18150
Google	12000
Meta	11000
Salesforce	10090
Microsoft	10000
Philips	10000
Ericsson	8500

NULL	322

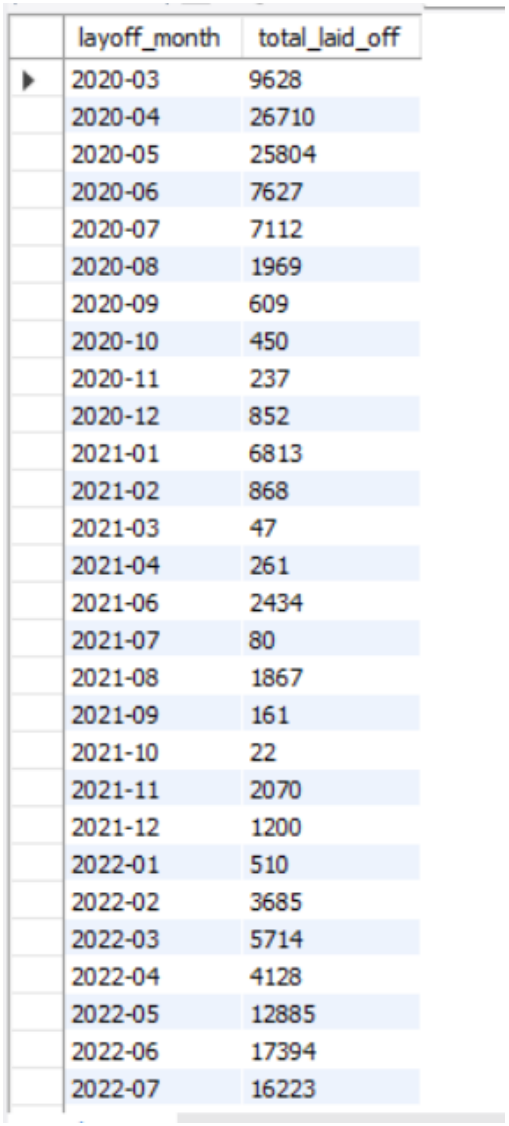

10. Reported Layoffs by Year

Query/result: YEAR(date); SUM(total_laid_off), excluding NULL dates. The visible results show 2020: 80,998; 2021: 15,823; 2022: 160,661; 2023: 125,677.

layoff_year	total_laid_off
2020	80998
2021	15823
2022	160661
2023	125677

11. Reported Layoffs by Month

Query/result: DATE_FORMAT(date, '%Y-%m'); SUM(total_laid_off), excluding NULL dates. The screenshot shows monthly reported totals; visible months include a high of 26,710 in April 2020 among the displayed rows.

layoff_month	total_laid_off
2020-03	9628
2020-04	26710
2020-05	25804
2020-06	7627
2020-07	7112
2020-08	1969
2020-09	609
2020-10	450
2020-11	237
2020-12	852
